PROFILE

Revenue Assurance, fraud and data specialist with 14 years of experience in telecommunications and Mobile Money. At Millicom Tigo (Chad) I built the SQL reporting and anomaly-detection systems for Revenue Assurance and interconnection. Today at NP Holding (Burundi) I design and lead the compliance and control platforms covering the Lumitel, Econet and Onatel operators. I cover the whole chain: requirements, data (SQL Server, Oracle, Power BI), development (React, Node.js) and executive reporting.

KEY ACHIEVEMENTS

- **ITS-RAFM** — Revenue Assurance & Fraud Management platform: alarms, risk scoring, cross-operator revenue reconciliation, investigation cases, executive reports and audit trail.
- **Multi-operator KYC** — centralized Lumitel, Econet and Onatel subscribers: cross-operator reconciliation, risk scoring, real-time compliance alerts, role-based access.
- **Voice CDRs at scale** — Oracle tables of 1+ billion rows (~1.1M failed calls/day): redesigned queries brought 24-hour and 7-day views from time-outs to under one second.

SKILLS

Revenue Assurance & Fraud	Revenue reconciliation, anomaly detection, risk scoring, alarm and investigation management, CDRs (voice, IN, recharge, transfer)
Mobile Money / DFS	Wallet, USSD, agent and merchant network, interoperability, KYC/AML
Data & BI	SQL Server, Oracle, PostgreSQL, MySQL, Power BI, DAX, Power Query, Excel/VBA, Python, R
Development	React, Node.js/Express, REST/GraphQL APIs, Socket.IO, authentication and roles
Project management	PMP, Agile, business analysis, Executive Committee reporting

PROFESSIONAL EXPERIENCE

Senior IN, VAS & MFS Consultant — Data & Project Lead (Revenue Assurance, Fraud, KYC) — Jul 2023 — present

NP Holding — Bujumbura, Burundi

- Designed and lead the ITS-RAFM platform and the KYC system covering Lumitel, Econet and Onatel.
- Integrated SBC voice CDRs from Oracle: successful/failed views, asynchronous bulk exports, sign-in and audit.
- Oversee VAS/MFS activities (wallet, USSD, agents and merchants, interoperability) and reconcile operator files.
- Power BI/DAX dashboards, reporting automation and project tracking presented to the Executive Committee.

Founder & Executive Director — May 2017 — present

Digital Business Services (DBS) — Chad, remote

- Digital and data consulting firm: complete web platforms for institutions, NGOs and SMEs (SNRC, Eden Business Center, Harvest Center, CDO Chad).
- Requirements, specifications, Agile project management, development (React, Node.js, PostgreSQL/MySQL) and production support.

Partner — Full-Stack Developer — Sep 2024 — present

Agence ToBeMalko — N'Djamena, remote

- React / Node.js web applications, REST and GraphQL APIs on PostgreSQL; SQL query optimization.

Facilitator consultant — digital marketing training — 2025 — 2026

SESA — IRC consortium (EU programme), Burundi

- Training on digital tools, participant follow-up and programme data reporting.

Partner & Technical Project Lead — Feb 2021 — Jun 2023

SALY SYSTEM — Chad

- End-to-end ICT and data projects: database design, dashboards and performance-monitoring systems.

Consultant — Information Management & MEAL — Feb — Apr 2021

FAO — Chad

- MEAL frameworks, data collection tools, monitoring indicators and Power BI dashboards for donor reporting.

Specialized enumerator — food security 2019 — 2020

Ministry of Agriculture / WFP / FAO / UNICEF — Chad

- Collection, validation and quality control of food security assessment data.

BI Analyst — Revenue Assurance, Interconnection & Business Development Oct 2012 — Mar 2017

Millicom Tigo — N'Djamena, Chad

- SQL reporting systems and dashboards to monitor revenue, interconnection and performance.
- Automated data reconciliation and anomaly detection on large telecom datasets, identifying discrepancies and revenue leakage.
- Supported business development and operational risk control.

EDUCATION

Master's degree, MIAGE — Applied Computer Methods for Business Management
USTTB, Bamako (Mali) — 2010

Associate degree (DUT), Management Information Systems
USTTB, Bamako (Mali) — 2007
